

Albert Jonathan Aditya Nugroho

Computer Science Student | Software Engineer | Cloud & ML Enthusiast • ctalbertforwork@gmail.com • github.com/bebret

Summary

Computer Science student at Bina Nusantara University (BINUS) with hands-on experience in cloud architecture, full-stack development, UI/UX and computer vision. Co-author of deep learning research evaluating object detection models for image classification. Engineering robust web applications using Laravel, Vue.js, and Python. Passionate about computer hardware with a keen interest in building PCs and exploring custom pc.

Education

Bina Nusantara University | Bachelor of Computer Science

SMA Trinitas Bandung | High School Diploma

Technical Focus & Expertise

- **Machine Learning & Computer Vision:** Specialized experience in deep learning and object detection frameworks, including Ultralytics YOLO (v8, v11, v26), MobileNet, ResNet, and EfficientNet.
- **Programming Languages:** Python, C, Java, PHP, JavaScript, and TypeScript.
- **Cloud Infrastructure (GCP):** Hands-on experience cloud architecture with Google Cloud Platform services, such as Compute Engine, Google Kubernetes Engine (GKE), Cloud Storage, BigQuery, Cloud Armor, Cloud Pub/Sub, and API Gateway.
- **Full-Stack & Web Development:** Experience with Laravel, Vue.js, Vite, Axios, Tailwind CSS, Bootstrap, and Gradio.
- **Computational Biology:** Familiarity with bioinformatics algorithms, sequence alignment, and tools like Biopython, NCBI Entrez, and PyMOL.

Key Research & Technical Projects

Research & Conferences

- **Deep Learning Research Paper:** Co-author of "*Deep Learning Models for Image-Based Skin Disease Classification*" (evaluate and performance analysis of object detection & deep learning models for dermatological image classification).
- **International Conference:** Participation/Presentation at **ICISS 2026** (*International Conference on Information Systems and Security*).

Web Development & AI Projects

- **AI Skin Disease Detection Web App :** Interactive AI/ML web application built with Python for real-time dermatological image recognition.
- **UI/UX Designer / UI/UX Product Designer :** Diverse mobile applications, including an on-demand technician finder (TekGoho), an adaptive learning platform (NeuroLearn), and an accessibility-focused assistant for ADHD users (Pacefully).
- **Population Data Mutation Web App :** Full-stack administrative web application engineered using the Laravel framework.
- **Interactive YOLO Object Detection Web App:** Computer vision demo application built with Gradio and Ultralytics YOLO hosted via Google Colab.

Community & Leadership

- Volunteer / Activist di *Teach for Indonesia Student Community* (TFISC). 2026-2027
- *Youth Organization Leader* di Rekriwa. 2023-2024

Verified Certification

- UI/UX Design Certification (Figma, Prototyping).
- Frontend Engineering Certification (HTML/CSS, JS).
- AZ-900 Microsoft Azure Fundamentals
- Google Cloud Computing Foundations Certificate
- SQL Course: Databases for Developers: Foundations

Competition

- ICPC Indonesia National Contest (INC) 2024
- ACTION – Agent of Change for Financial Literacy & Inclusion 2026.

Technical & Soft Skills

- **Programming Languages:** Python, C, Java, PHP, JavaScript, TypeScript, SQL, HTML5, CSS3/ES6+
- **Cloud & Infrastructure:** Google Cloud Platform (GKE, Compute Engine, Cloud Storage, BigQuery, Cloud Armor, Cloud Pub/Sub, API Gateway), Microsoft Azure (AZ-900)
- **Machine Learning & Computer Vision:** PyTorch, Ultralytics YOLO (v8, v11, v26), OpenCV, MobileNet, ResNet, EfficientNet, Gradio
- **Full-Stack & Web Development:** Laravel, Vue.js, Vite, Axios, Tailwind CSS, Bootstrap, RESTful APIs, MySQL, Blade, Eloquent ORM
- **UI/UX & Product Design:** Figma, Wireframing, Interactive Prototyping, Design Systems, Mobile UI, User Research
- **Developer Tools & Frameworks:** Git, GitHub, Cisco Packet Tracer, Biopython, NCBI Entrez, PyMOL
- **Soft Skills & Methodologies:** Technical Leadership, Cross-Functional Teamwork, Project & Logistics Management, Agile Collaboration, User-Centered Problem Solving, Academic Writing & Research Presentation
